PROFESSIONAL SUMMARY

Frontend Developer with a strong interest in building intuitive, high-quality web applications that solve real problems. I enjoy turning ideas into responsive, user-centered experiences through thoughtful engineering, attention to detail, and a problem-solving mindset. Driven by curiosity and continuous learning, I approach every project with a focus on writing maintainable code, improving user experience, and delivering solutions that are both practical and scalable. Committed to contributing to a collaborative team while continuing to grow as a software engineer through building impactful products.

TECHNICAL SKILLS

Technologies

- HTML5
- CSS3
- JavaScript
- TypeScript

Frameworks / Libraries

- React
- Next.js
- Tailwind CSS
- Framer Motion
- Zustand

Tools & Version Control

- Git
- GitHub
- Figma
- Vercel

DEVELOPMENT PRACTICES

- Responsive Design
- Accessibility
- API Integration
- Performance Optimization
- Debugging
- Version Control
- Component-Based Architecture

EXPERIENCE

TravelBrain AI | 2026 – Present

Founder & Full-Stack Developer

Designed and developed an AI-powered travel planning platform focused on delivering personalized itinerary generation and an intelligent travel experience. Built the product from concept to implementation, creating a scalable full-stack architecture with a strong emphasis on performance, maintainability, responsive design, and AI-powered functionality.

- Architected and developed scalable frontend and backend features using modern full-stack development practices.
- Built responsive, accessible, and mobile-first interfaces that provide a seamless experience across desktop and mobile devices.
- Designed reusable and maintainable application components to improve consistency, scalability, and long-term code quality.
- Developed REST APIs, authentication, trip management, and AI-powered itinerary generation with a clean backend architecture.
- Led product planning, system design, and continuous feature development from initial concept through implementation and deployment.

Tech Stack:

Next.js, React, TypeScript, Tailwind CSS, Express.js, PostgreSQL, Drizzle ORM, Framer Motion.

EDUCATION AND TRAINING

Education

2021-2026: Federal University of Technology, Minna.

B.Eng. in Telecommunication Engineering.

Technical Courses Completed

2024-2025: Huawei ICT Academy | HCIA DataCom

Other

- Member of code with Big J
- Football
- Video Games
